Although, the best prior art of record to Zanchi et al. (US 5,633,484) discloses a system and method for storing preferences of the particular user at the donor device or a smart card wherein the donor device provides stored information to the application device for updating user preferences such as font types, font sizes, menu order preferences, etc., and Detlef (US 6,178,403) discloses a hand-held data device such as a PDA for storing address book having a name, an address, and a phone number of individuals. However, Zanchi et al. and Detlef taken alone or in combination of other references, fail to specifically teach or fairly suggest that the system and method for managing a plurality of local list of a single user comprises a smart card storing a master list composed of personal data entries including names, address, telephone number, and email addresses wherein the master list are configured for synchronizing with each local list of remote appliances when the smart card is engaged with the card reader of the remote appliances as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
